

Gabrielle Corley - Team Member

As a Library Media Specialist for K-12 Schools for many years, I enjoyed working with students of all ages and helping them develop into lifelong readers and learners. My special passion was teaching students to think critically through a question and become independent researchers and storytellers. I then changed track a little and became a curriculum coordinator specializing in Instructional Technology and Head of Library Services for the Webster Groves School District. During that time I was also a regional eMINTS (enhancing Missouri's Instructional Networked Teaching Staff) Instructor for teaching staff focusing on technology in the classroom as well as social interaction and student research.

I hold a BS in Education, a MA in Information and Library Services, Teaching with Technology certification, and a certificate to teach eMINTS to educators. The latest chapter in my journey involves working with the amazing HEC-TV staff as a team member, and it is an honor and a pleasure to contribute to their mission.
